

JENNINGS GP WEEKEND – MARCH 20-21, 2006

Ducshop Performance Center kicked off the riding season with a successful two day track day at Jennings GP circuit March 20 - 21. After the winter break Ducshop's customers were eager to dust off their bikes and scrub in their new tires in the warm Florida sun and apart from a couple of minor incidences, it was two days of pure fun.

One "minor incident" went almost unnoticed except it was brilliantly caught on camera. Former off-road racer, Jesse Tremaine, called on his dirt track experience after losing his footing on turn one which caused him to take an off track excursion up the grassy embankment (in true Scott Russell style) returning to the track unscathed.

Unfortunately one of Ducshop's partner's off road excursion, though spectacular, wasn't quite as successful. It ended in a totaled bike and a wasted six hours in the emergency room of Valdosta

hospital. Fortunately he also came out unscathed apart from two stitches in his left ring finger. How that cut happened? we've no idea.

There were a few regular Ducshop customers sorely missed, having to compete in the WERA races at Savannah, but they'll be joining us for Barber in June.
